# COMPANY PROFILE

---

**Founded in 1997, RAMCUBE focuses its activity on designing custom-made, unique, select software solutions**

---

Merging diverse and complementary skills, integrating with steadfast experience, and sustaining them with constant updating, RAMCUBE can guarantee accurate analysis, genuine technological contributions and precise output.

We guarantee services where the priority is achieving quality objectives.

RAMCUBE's head offices are in Milano, but our business spreads into various countries worldwide.

### FLEXIBILITY AND ADAPTABILITY

---

Our structure is optimized to guarantee utmost flexibility: our adaptability allows us to fulfill the needs of any company of any size.

A team of highly qualified professionals manages and runs the projects from a central control position, while our business alliances, and our consolidated partnerships with sector experts, allow us to extend our offer with supplementary products and services.

This flexibility is the key to producing custom-made solutions, crafted around our clients needs, within time and cost limits.

### FAST AND DIRECT COMMUNICATION

---

Our clients know they can contact us at any moment and over any matter.

We are proud of being able to guarantee prompt and exhaustive answers.

Our team is outstandingly helpful and accessible, allowing our clients to interact with us quickly and directly.

We are constantly striving to improve our communication channels and to develop new and innovative ways to carry on this objective.

### CLIENT-CENTERED OPERATING MODEL

---

We've developed a truly unique operating model to enable our clients to interact with us at every stage of the project. The close link thus established allows us to deliver immediate feedback to our team of experts, to keep to the objectives, and to limit project costs.

Moreover our work management systems are based on consolidated and ISO 9001:2008 certified procedures. These features combined enable us to provide solutions customized to our client's needs, leaving our clients free to concentrate on their business and delegating us with the technological issues.

### ALWAYS KEEPING ONE STEP AHEAD

---

We are continually committed to keeping our competencies up to date in order to aid our clients in choosing the best and most appropriate solutions for their projects.

By constantly re-adjusting our procedures and regularly attending specialization courses we keep on top of the most recent innovations in technology.

Furthermore we have secured agreements with an array of technological partners that are business leaders in their own sectors: employing these partnerships, and constantly interacting with experts in technology, we ensure to always keep one step ahead in adopting the newest technologies to meet our clients needs.

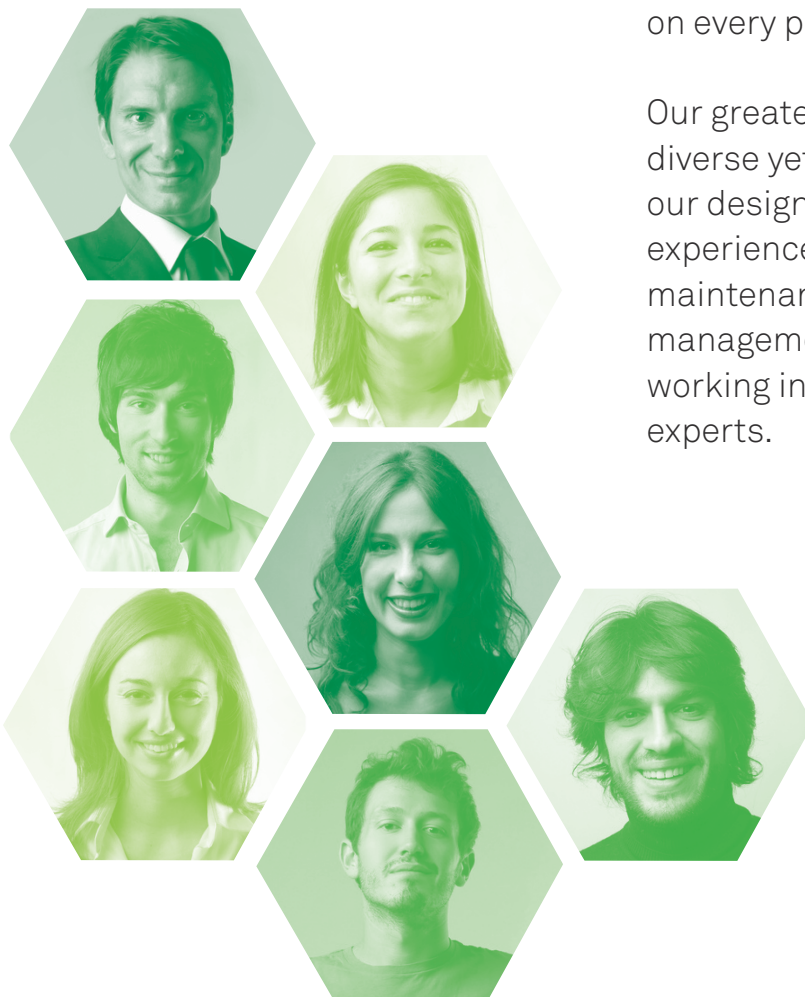

---

**RAMCUBE is a young,  
lively, cooperative,  
and highly professional  
environment**

---

We draw together a close-knit group of software designers, multidisciplinary specialists, analysts, developers and system engineers, who are enthusiastic of growing, experimenting, learning and working with an innovative outlook on every project undertaken.

Our greatest asset is in merging diverse yet complementary skills: our designers have twenty years of experience in system engineering, maintenance, document & data management, logistics, production, working in close synergy with the ICT experts.

---

RAMCUBE operates in various business sectors: the food industry, chemical and petrochemical industry, commerce, education, industry and manufacturing sectors, the public administration, transport and tourism
